

Qwarie modular OSINT courses, so you select what you require

5 updated modules | **2** new modules

What's Out?

Resources and procedures that are no longer available for OSINT researchers.

Whois:

- Since GDPR most Whois resources do not provide any personal information.
- Some resources provide misleading information.
- Find out how to detect misleading information, and;
- how to locate pre GDPR personal data.

Facebook:

- users have greater awareness of privacy, and;
- users restricting their accounts, more than ever
- searching inside Facebook now more restricted

Twitter:

Tools no longer available:

- Conweets.com
- Twipho.net
- Cree.py

What's In?
